

The BRIDGE SCHOOL

Providing the supportive and nurturing environment our students need to succeed.

Outdoor Education Offer

The Bridge School is offering short term interventions for students who are on individualised and broadened curriculum. The use of outdoor education will be used to engage the learners in personal enrichment programmes. The Programme is explained in further detail below but can be made bespoke to your school or learners. It will be focused around gaining accreditation were possible for each subject area as well as looking at personal, social development.

Programme Details

The programme is 1 day a week over a 6 week period and is designed as an intensive quick intervention to ensure the engagement of learners in education. The cost of the programme is set at £420pp (£70 pp per day). This includes all transport and costs associated with the programme e.g. Hire of equipment or facilities. All equipment required for health and safety will be provided by The Bridge School and the programme will be facilitated by full qualified staff who have experienced dealing with challenging behaviour in outdoor locations.

There will be a maximum of 6 learners on each programme to allow staff to build strong relationships with each learner and provide them with a quality experience ensuring effective outcomes for each learner. Sessions can be tailored to an individual's needs, to ensure all needs are met across the programme.

Bespoke Programme

If your organisation chooses to fill all six places on a programme we can design a bespoke course around the needs of all your learners, for a discounted price. If you think they would benefit from more focused work in a particular area, this could be something we could accommodate. For further details contact Alex Carroll (Alex.Carroll@halton.gov.uk).
