Well done to our top three students from KS3 and KS4!

As we look ahead to the next academic year, I am writing to share some exciting developments for all our students, in particular Year 10 and Year 11.

These changes have been carefully designed to strengthen our curriculum offer, provision opportunities, and ensure that every young person receives the highest quality education, alongside the support they need to succeed.

At the heart of these developments is our core aim: to provide a **high quality, full-time education that enables pupils to thrive, achieve recognised qualifications, and move confidently into their next stage of life.**

What does this mean?

From September 2026, all Key Stage 4 students will attend The Bridge School or one of our satellite buildings **five days per week.**

Previously, students accessed provision across multiple settings, which sometimes impacted consistency, attendance, and overall progress.

This change will allow us to better understand and support each individual student, ensuring they receive a more personalised and effective educational experience.

New structure to the School Day

To support the 5-day model, there will be a slight adjustment to the timings of the school day:

Start time: 8.45am

End time: 2.20pm

There will now be **five lessons per day**, each lasting 55 minutes. This includes **one break and one lunch period.**

This revised structure maximises learning time, provides a broad, balanced, and ambitious curriculum whilst maintaining a manageable school day.

On Wednesday 10th June, our Year 11 cohort sat their last GCSE exam and said farewell to staff and other students before moving on to the next stages of their education.

The day ended with a presentation and awards ceremony where Lily B was awarded Student of the Year for her outstanding transformation in school, overcoming difficulties and most improved attendance. Students were also treated to a BBQ hosted by staff; music; shirt signing and an inflatable sweeper eliminator which brought out the competitive side in staff as well as students!

We wish our Class of 2026 all the luck in the world and will look forward to seeing them all on **GCSE Results Day on Thursday 20th August**.

Results Day - Thursday 20th August 2026

On Friday 12th June our Construction Tutor, Jeff, attended the Aspiring Pathways programme national launch in Blackpool.

There he worked with Julie Baker highlighting what we have already achieved, the changes made on both sides to meet the needs of the learners, the school and Keepmoat/the house building industry.

Between us we show cased what could be achieved in producing a model for Alternative Provision's to emulate. We also became a focal point for all attending to gain knowledge of what we have accomplished and what the aim is moving forward.
